Dear Parent/Guardian:

Your son/daughter has been provided with a student handbook which includes basic policies and penalties as they relate to the expected code of conduct of all students. Other informational items are also included.

Act 104 of 1983, School Laws of Arkansas, Section 1, Item D, requires that all school districts must document the parent/guardian and student receipt of such policies as retained in the aforementioned handbook. We are therefore compelled to require that each parent/guardian and student sign this form below, acknowledging that they have received a copy of the Salem High School Handbook. We must further ask that this form be returned to the office of the principal as soon as possible.

I have received a copy of the Salem High School Handbook, and I am aware of what is expected of my child and of what penalties my child will be subject to should he/she not conform as it relates to the code of conduct of all students.

**SCHOOL LAWS OF ARKANSAS**

The Salem School District shall comply with School Laws of Arkansas as they apply to pupils attending, or eligible to attend Salem Schools.

**GRIEVANCE PROCEDURES**

The Salem School District uses the chain of authority for the processing of complaints, problems or grievances of parents concerning discipline and grades of their children. In order to satisfactorily alleviate the problem, the following procedures shall be followed.

1. In problems concerning grades or the discipline of a student in which a teacher is involved, the principal shall arrange a conference between the parent and the teacher concerned. In the teacher-parent conference, the teacher shall provide explanation, substantiate grades and provide the parent with methods and materials which may strengthen the student.
2. If the parent is not satisfied with the teacher's explanations, the parent may request to discuss the problem with the principal.
3. Parents who are not satisfied after the conference with the principal and others involved may request to have the problem brought before the superintendent.
4. Parents who are still not satisfied after the conference with the superintendent and others involved may request to have the problem brought before the Board for consideration.
5. Teachers are not required to talk either directly or by telephone to parents who are irate, abusive, threatening or using foul language. The parent should be referred to the principal. Letters or notes from parents with the same motive or attitude are not to be answered, other than to refer them to the principal.

**PUPIL AND SCHOOL POLICY INTRODUCTION**

This Policy was formulated by the Salem School Board in coordination with the School Administration and representatives of the Salem High School Teaching Staff. This policy was established and adopted to enhance the teaching-learning environment of this school system and is in compliance with and conforms to

the School Laws of Arkansas. It has been published and distributed in order that students, parents, and school staff shall be aware of the policy's existence and for convenience of reference by all interested personnel. Students and the school staff shall thoroughly familiarize themselves with the provisions of this handbook. Ignorance of specific provisions shall not be an acceptable excuse for non-compliance.

### **DISTRIBUTION-DISSEMINATION**

All students enrolled in grades 7-12 will receive a copy of this handbook prior to the commencement of classes. It is the students' responsibility to read the student handbook.

Students enrolled subsequent to the first day of school will be furnished and required to read a copy of this policy. Students are expected to take their handbook home to their parents/guardians for them to read. A form will be provided for parent/guardian signature as a statement of their acknowledgment that they have seen and read the handbook. These signed forms will be kept on file in the high school principal's office.

### **ADMISSION TO SALEM HIGH SCHOOL**

Prior to a child's admission to the Salem Schools, the school district will request the parent, guardian, or other responsible person to furnish the child's social security number and will inform the parent, guardian, or other responsible person that, in the alternative, they may request that the school district assign the child a nine-digit number designated by the Department of Education. Prior to admission, the parent, guardian, or other responsible person will provide the school district with one of the following documents indicating the child's age; (1) a birth certificate; (2) a statement by the local register or a county recorder certifying the child's date of birth; (3) an attested baptismal certificate; (4) passport; (5) an affidavit of the date and place of birth by the child's parent or guardian; or (6) previous school records; (7) United States military identification. Prior to admission, the parent, guardian, or other responsible person will indicate on school registration forms whether the child has been expelled from school in any other school district or is a party to an expulsion proceeding (6-18-208).

2. A student transferring to the Salem School District from another school district (accredited or non-accredited) must present his report cards from his previous school, and other information reflecting his classification. The student's transcripts and cumulative folder will be requested by the school administration from the school formerly attended by the student.

2. Any student transferring from a school which is not accredited by the State Department of Education shall be evaluated by the staff of this school to determine proper placement.

#### **HOME SCHOOL STUDENT ADMISSION POLICY**

Realizing that home schooled students may have been working under varying curriculum requirements that may have enabled them to work at a different academic level than the public school students of their age group, it is necessary for Salem Schools to adopt procedures for the placement of these children. In accordance with Act 863 of 2017, these procedures will include the administration of placement tests and other academic indicators to determine the appropriate academic level placement for each home schooled student wishing to enroll or re-enroll in the Salem Schools. According to Act 1127 of 1999, parents or guardians desiring to provide a home school for their child must give written notice to the superintendent of their local school district of their intent to provide a home school for their child and sign a waiver acknowledging that the State of Arkansas is not liable for the education of their child during the time that the parent chooses to home school. This notice must be submitted no later than August 15 for the fall semester or December 15 for the spring semester. Students may be eligible for home schooling after the above dates under certain circumstances if a request is submitted to the Superintendent and a fourteen day waiting period is observed. Students under disciplinary action or those students in violation of the attendance policy may not be eligible for home schooling.

#### **ACCIDENT AND ILLNESS AT SCHOOL**

1. Accidents to students on the school grounds or in school shall be reported immediately to the school administrative office.

2. Only first aid treatment will be given by school personnel. If it is a serious injury we will immediately notify the student's parents. When we cannot locate the student's parents we will call the family physician or another doctor.
3. The school assumes no responsibility for financial obligations incurred in medical treatment of students.
4. When students are injured or become ill, their parent/guardian should be notified and requested to take the student home, or for medical treatment, as appropriate.
5. The Salem School District has established policies and procedures which will minimize the risk of spreading infectious disease and insure the minimum disruption of the educational process. The policy is on file in the principal's office.

### **PHYSICAL EXAMINATION**

Any student who elects to participate in any inter school competitive athletics shall be required to submit to and pass a physical examination each year before being allowed to take part in such sports. Students should check with the coaching staff to obtain information on when and where to get a physical exam.

### **STUDENT MEDICINE OR MEDICATION**

The approved and accepted items used in First Aid may be given to students at the school when required. Students that have special needs (example: hyperactive, epileptic, asthmatic, etc.) may be given medication under the following conditions.

1. Written authorization must be furnished to the school administration by the parent/guardian which shall specify the name of the student, the name of medication, and the name of doctor. School personnel will not be responsible if undesired reactions occur.
2. All medication must be given in the original bottle and not mixed.
3. If there is need for the giving of medication on a long-range basis as for a convulsive disorder, hyperactivity, asthma, etc., a doctor's statement is necessary stating requirements for giving the medication during the school hours and any reaction that might occur.
4. Medicine will never be given to a student without written consent from the parents.
5. All medications must be brought to school by the parent/guardian. Under no circumstances should a student bring any form of medication to school.
6. Students are allowed to carry and use prescription asthma inhalers and auto injectable epinephrine while in school and at all school sponsored activities. The

parent or guardian of students who carry and use prescription asthma inhalers and auto-injectable epinephrine must provide the school with written authorization for the student to carry the inhaler or auto-injectable epinephrine. The written authorization will include: student's name, date of birth, age, ID number, parent's information, address, emergency contact information, name of medication, dosage, time to be administered, condition for prescription, possible side effects and their management, prescriber's name, number, signature, date of order, and parent's or guardian's signature to allow the school nurse to contact the prescriber. The written authorization is valid for the duration of the school year. Authorization must be resubmitted each school year. The asthma inhaler and auto-injectable epinephrine must be in the original container.

### **LOCKER AND PERSONAL SEARCHES**

School authorities may search a student's locker or make a personal search and seize any illegal or contraband material. Lockers belong to the school district; therefore, the locker and a student's property in the locker are subject to periodic administrative searches, and the school district reserves the authority to search lockers without the consent of the student, if necessary. Searches should be made under the following conditions:

#### **LOCKER SEARCHES:**

1. Students should be informed of the conditions governing the use of school lockers when locker assignments are made.
2. Searches should be made only by the building principal with a witness present. The search of a particular locker should be made only upon a reasonable assumption that the student is secreting evidence of an illegal act or contraband material.
3. Blanket searches of every locker should not be permitted except in unusual circumstances such as a bomb threat.
4. If practical, the student should be given the opportunity to be present when a search of his/her locker (or personal possessions) is conducted, and if there is no reason to believe that his/her presence would be a threat to the safety of the student or others.

#### **PERSONAL SEARCHES:**

1. A search of a student's person should be limited to a situation in which the administration has reasonable belief that the student is concealing evidence of an illegal act, contraband, or has violated a school rule.
2. Dangerous items (such as firearms, weapons, knives), controlled substances as defined by Act 590 of 1971, as amended, and other item which may be used will be taken from the student's possession and be reported and transmitted to the proper authorities.

3. Students should be asked for their consent prior to a personal search. A search warrant should be obtained if a student objects to a personal search unless there is reasonable cause to believe that a dangerous weapon such as a gun or knife is being concealed.

4. A pat-down search of a student's person should be done by a school official of the same sex and with an adult witness present.

### **FRATERNITIES, SORORITIES, SECRET CLUBS**

Once a student arrives at school, he/she must not leave school without checking out through the principal's office. The school operates under a CLOSED CAMPUS. This applies to every period of the day including the noon period.

Married students shall have the same educational opportunities, curricular and extra curricular, as unmarried students. They shall be expected to assume the same responsibilities and abide by the same rules and regulations governing all other students.

## **PREGNANCY**

A pregnant student has the legal right to continue school in regular classes unless there is evidence that her presence in the classroom or school does, in fact, disrupt or impair the educational process for other students. In the event of a student pregnancy, the student will, as soon as the fact has been established, report this condition either to a teacher of her choice or directly to the school principal. The student shall then be counseled regarding her rights and the various options that are available to her.

## **LIBRARY**

Disturbances in the Library will not be tolerated at any time. It shall be the duty of the librarian and principal to see that this policy is enforced. It is also the duty of the librarian and library aides to see that students do not use the library as a loafing place. If school officials have reason to believe that a student is away from school without permission, they may make reasonable efforts (phone or letter) to contact the parents or guardian. It is also the responsibility of the school to contact the proper authorities when necessary.

### **STUDENT RESPONSIBILITY FOR MISSED WORK**

In the case of a missed test or assignment, the student must take the missed test or hand in the missed assignment on the day he or she returns to school, if the test or assignment was announced prior to the student's absence. Otherwise, missed tests, as well as other missed work must be completed and turned in within a "reasonable" time, depending on how many days have been missed. As an example of what is "reasonable", if a student missed one day, he or she will be given one additional day to turn in work; if two days are missed, the student will have two days to turn in work, and so on.

### **EXCESSIVE ABSENCES**

Salem High School believes that students should be in attendance every day school is in session. Establishing a good attendance record is an important aspect of building a responsible work ethic.

After a student has been absent five times in any class a letter will be mailed informing the parent or guardian of the number of absences and the adverse effect it may have on the student's academic achievement. It will also stress that more than ten absences will result in a student not receiving credit for classes in which he or she is enrolled and he or she will not be permitted to participate in or attend any school sponsored activities.

A student who has been absent nine times in any class will receive a letter by mail informing the student's parent or guardian of the number of absences. Before a student accumulates the maximum number of absences allowed in a school district's student attendance policy, the student or the student's parent, guardian, or person in loco parentis may petition the school administration or school district administration for special arrangements to address the student's absences. If special arrangements

are granted by the school administration or the school district administration, the arrangements will be formalized into a written agreement to include the conditions of the agreement and the consequences for failing to fulfill the requirements of the agreement.

A student who has accumulated more than ten absences will not be permitted to check out at any time during the school day. An exception to this will be made only if the parent or guardian personally signs the student out at the principal's office.

Additional absences may be granted when the absence was due to one of the following reasons; the student's illness or the student's attendance could jeopardize the health of other students, death or serious illness in their immediate family, observance of recognized holidays observed by their faith, attendance at an appointment with a government agency, attendance at a medical appointment, exceptional circumstances with prior approval of the principal, participation in an FFA, FHA, or 4-H sanctioned activity. Documentation for each of these absences will need to be presented to the high school principal once a student exceeds 10 absences.

#### EXCEPTION

If a special arrangements meeting has been held consisting of the parent/guardian, student, and principal or his designee, and the student has met the requirements of the special arrangements meeting, the student may be granted credit. Note: The burden of proof (doctor's notes, etc.) is the responsibility of the parent or guardian and student. It should also be stressed that it is the parent or guardian's responsibility to request a conference. The time will be determined by the principal or his designee. The presence of the parent or guardian and student is required. However, in the event that the principal or designee has prior knowledge of a student's absence (example: accident, death in family, etc.) and is able to document this appropriately the conference may be found to be unnecessary. In this event the parent or guardian will be notified that a conference is not required.

If loss of credit results and or excessive absence continues the proper authorities will be notified (example: Human Services, Prosecuting Attorney, etc.) as mandated by Arkansas Law.

A student who has exceeded the maximum number of absences allowable and has received an F in that class may continue to attend that class providing he/she does all work requested by the teacher, and follows directions of the teacher. Failure to follow these provisions will be reason to remove the student from class and placed in a study hall.

A student that misses ten (10) minutes of a class or study hall (any part of the class-beginning, middle, or end of the period) will be counted absent. A student that misses a class or study hall (less than ten (10) minutes) will be given a tardy.

Three (3) tardies will be considered an absence.

The school day consists of seven class periods totaling 364 minutes and a 30 minute lunch. All students are expected to be in school the full day.

### **PROMOTION POLICY**

Seventh and eighth grade students will be promoted on the basis of passing three out of the four core curriculum classes they must take.

Determination of pass/fail for a class will be done on a yearly average based on the grading scale. The yearly average will be defined as the average of the two semester grades.

### **GUIDELINES FOR STUDENT PLACEMENT**

Students transferring from non-accredited institutions with grade placements of nine through twelve will be evaluated using standardized achievement test(s) scores whenever possible. Achievement test scores will only be used for academic areas and is not intended to indicate acceptance of credit in physical education, vocational, and business education courses. Successfully completed credits in these areas will be accepted from the sending institution. For the subjects in which credits are allowed, there will be no letter grade recorded, only a unit of credit. Grade point averages and class rank will be computed using only those grades earned in attendance at Salem High School. Credits for students transferring to Salem High School from other accredited schools where credit has been accepted in transfer from non-accredited schools will be accepted. Placement will then be determined by the total number of credits accumulated by the student, according to the regular classification procedures of Salem High School. Students who transfer credits from non-accredited institutions will not be eligible to compete for senior scholastic honors including class valedictorian and salutatorian. However, they will be eligible to compete for scholastic honors in classes in which they were enrolled at Salem High School. Graduation requirements shall be the same for the transfer student as for all other Salem High School students. Appeals for exceptions of this policy may be made to an evaluation committee consisting of the principal, counselor, and designated faculty members.

### **GRADUATION POLICY**

In accordance with Act 275 of 1997, any student who is enrolled in a public high school in Arkansas and has earned the number of credits required by the local school district for graduation shall be eligible to graduate from the high school without regard to the grade level the student is enrolled in at the time such credits are earned. They will be required to complete a minimum of four (4) solids each semester of their senior year.

A student who has not accumulated 22 credits cannot participate in graduation exercises.

Under no circumstances will a student be able to graduate from Salem High School or participate in the graduation ceremony until he/she has met all requirements as stated by state and local policy.

Any student who has previously been allowed to participate in a graduation ceremony without receiving a diploma will not be allowed to march with another graduating class even though the student may have met all requirements for graduation.

### **SCHEDULE CHANGES**

Dropping or withdrawing from any class after that class has met ten (10) times the first semester or the second semester will result in a failing grade for that class. Any exception to this policy will be for administrative purposes only.

### **SUPERINTENDENT'S AND PRINCIPAL'S LISTS**

It shall be the policy of the Salem High School District to be non-discriminatory regarding recognition of student grades. The honor roll consists of the Superintendent's and Principal's lists.

All students who have earned all A's in all classes represented by quarterly report card grades will be placed on the Superintendent's list for that respective quarter.

All students who have earned all A's and B's, or all B's, represented by quarterly report card grades will be placed on the Principal's list for that respective quarter.

Recognition for those students who qualify for the Superintendent's or Principal's list will consist of newspaper and radio coverage, and a general student assembly to present awards through the Renaissance program. Awards will generally vary as to the nature of individual and organization donations to this program.

### **HOMEWORK POLICY**

Homework is an essential element in the overall educational program. It not only reinforces and supplements classroom instruction, it also promotes self discipline and work ethic. These are characteristics that students will need to be successful both in and outside the educational environment. The student can expect the following from teachers at Salem High: 1. The teacher will provide feedback as quickly as possible on all assignments. The teacher will provide feedback within eight (8) school days of the assignment due date unless an extension is approved by the building principal. 2. Homework will never be assigned unless it is to be evaluated by the teacher. The teacher will expect all students to turn in all assignments on time.

### **CORRESPONDENCE COURSES**

High School correspondence courses may be applied toward graduation if a student meets one of the following requirements: (1 ) a student fails a course (2) due to a scheduling conflict, a student is unable to obtain a course necessary for graduation.

All courses must be approved by the principal's office prior to enrollment and students must enroll in these courses through the Salem High counselor's office. Only two (2) units of correspondence credit may be counted toward graduation requirements.

### **GRADING SCALE**

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that reflect other educational objectives such as those contained in the learner outcomes and curriculum frameworks may also be given. The following grading scale shall be used by all public schools in the state for all courses, except advanced placement, pursuant to the State Board of Education's authority under Act 576 of 1993.

The letters A, B, C, D, and F will be employed as the marking system. In giving grades to students the following system will be used as a guide in grades 1-12.

A	90-100	Denotes superior work
B	80-89	Denotes above average work
C	70-79	Denotes average work
D	60-69	Denotes below average work
F	59 & below	Denotes failure

Advanced placement, international baccalaureate, or ADE approved honors courses will be given a weighted grade. In order for a student to receive the weighted credit for advanced placement, international baccalaureate, or ADE approved honors courses, the teacher must have the appropriate training, and the student must take the appropriate exam. The weighted grading scale for advanced placement, international baccalaureate, or ADE approved honors courses shall be as follows:

A	90-100 = 5 points
B	80-89 = 4 points
C	70-79 = 3 points
D	60-69 = 2 points
F	59 & below = 0 points

GPA will determine honors recognition for graduating seniors.

No grade point value shall be assigned to any extra curricular activities.

### **FORMATIVE ASSESSMENTS**

Each course will conclude the quarter with a formative comprehensive assessment. The assessment will be worth one test grade valued at 100 points.

### **CONCURRENT CREDIT CLASSES**

It is the policy of the Salem School District to permit students in grades 9-12 to concurrently enroll in an accredited institution of higher learning. Concurrent credit will be given to students who successfully complete a course from an institution which is accredited according to the rules and regulations of the State Board of

Education. Any student that wishes to use the concurrent course in place of a course required for graduation must fill out a concurrent credit form prior to enrolling in the college course. A decision as to whether credit will substitute for a required core course or will be used as an elective will be made by a committee. Students are strongly encouraged to see the principal and counselor before enrolling in concurrent credit courses off campus for high school credit.

Semester length college courses will be considered one high school credit. Upon request, a student may be granted release time from the normal school day to attend concurrent credit classes. Students that enroll in concurrent credit classes may do so at his/her own expense. The Salem School District assumes no responsibility for tuition, books, transportation or any other related expense. CLEP scores do not qualify for concurrent credit.

### **ASSERTIVE DISCIPLINE PLAN**

All students are required to obey the following assertive discipline rules.

1. Upon arrival students will go directly to their appropriate destination in an orderly manner and follow correct procedure.
2. Students will bring appropriate supplies to class. (Parents are responsible for providing appropriate supplies).
3. Students will keep hands, feet, books, and other objects to themselves.
4. Students will follow directions at all times.

### **STUDENT CONDUCT BEHAVIOR CODE**

All students are expected to conduct themselves in a manner that will reflect the best interest of the school system and not infringe upon the rights of others. The following activities are considered improper conduct and will subject the student to disciplinary action including, but not limited to, counseling, corporal punishment, and suspension or expulsion from school. A violation of the rule may occur whether the conduct takes place on school grounds at any time; off school grounds at a school activity, function, or event; or enroute to and from school.

#### **RULE 1: DISRUPTION AND INTERFERENCE WITH SCHOOL.**

No student shall:

3. Prevent or attempt to prevent the convening or continuing functioning of any school class, activity, or lawful meeting or assembly on the school campus.
4. Prevent students from attending a class or school activity.
5. Block normal pedestrian or vehicular traffic on the school campus or adjacent grounds unless under the direction of a school administrator.
6. Continuously and intentionally make noise or act in any other manner so as to interfere seriously with the teacher's ability to conduct the class or any other school activity.
7. b. A controlled substance may be used by a student who has a prescription for the substance, provided the substance remains in the container in which it was obtained from the pharmacist and the student must follow proper storage procedures in the school policy.

**RULE 6: WEAPONS, DANGEROUS INSTRUMENTS & CONTRABAND**

## **RULE 12: BEHAVIOR NOT COVERED ABOVE**

The school district reserves the right to punish behavior which is subversive to good order and discipline in the school, even though such behavior is not specified in the preceding written rules.

### **DISCIPLINARY ACTIONS COMPOSITION & RANGE**

Disciplinary actions taken by the Salem School District are designed to indicate the inappropriateness and level of seriousness of misbehavior as well as the primary goal of behavior modification.

The following is a non-prioritized list of some specific actions that are used:

- (1) Counseling.
- (2) Detention-before school, during break, lunch, after school, etc.
- (3) Loss of privileges.
- (4) Work assignment-academic or other.
- (5) Corporal punishment.

The action(s) and/or range of actions selected are based upon the particular incident, the seriousness, and the appropriateness of the consequence with respect to other individual factors.

A student that violates any school rule will be subject to the minimum and maximum penalties listed above. Students will be suspended or expelled from school for extreme violations of school rules, regulations, and/or policies. Listed below are some behaviors that may cause a student to be suspended or expelled from school:

- (a.) Assaulting or threatening to assault or abuse a school employee or student. Act 888 of 1995 requires the principal to report all felonies or other violent criminal acts committed against a teacher or student to the appropriate local law enforcement agency.

Such statement shall be signed by the parents/guardians/persons in loco parentis prior to readmitting a student or enrolling a student in any public school immediately after the expiration of an expulsion period.

### **CELL PHONES**

Cell phones can be an asset to students after the school day. They can especially be beneficial to students when they call their parents after activities. For this reason, students can carry a cell phone to school. If a student does bring a cell phone to school, it is recommended that he/she keep the device with them at all times and not in a locker. A student’s cell phone is not the responsibility of the school, but it is the responsibility of the student to keep up with his/her own phone. Cell Phones may not be turned on at anytime during the school day. If a teacher sees a student’s phone, the teacher will take the phone. The teacher will then bring the phone to the high school office, and the student’s parent/guardian will have to pick up the phone. More than two infractions of the cell phone policy may result in suspension. If a student has his/her phone taken by a teacher or posts on any site from the school day, he/she may lose the privilege of carrying a cell phone to school.

### **SURVEILLANCE CAMERAS**

Parents and students should be aware that cameras may be in use in school buildings, on school grounds, and in school vehicles.

## ANTI-BULLYING POLICY

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

Students are encouraged to report behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, to their teacher or the building principal. The report may be made anonymously. Teachers and other school employees who have witnessed, or are reliably informed that, a student has been a victim of behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, shall report the incident(s) to the building principal, or designee, as soon as possible. Parents or legal guardians may submit written reports of incidents they feel constitute bullying, or if allowed to continue would constitute bullying, to the building principal, or designee.

“Bullying” means the intentional harassment, intimidation, humiliation, ridicule, defamation, or threat or incitement of violence by a student against another student or public school employee by a written, verbal, electronic, or physical act that may address an attribute of the other student, public school employee, or person with whom the other student or public school employee is associated and that causes or creates actual or reasonably foreseeable:

Physical harm to a public school employee or student or damage to the public school employee’s or student’s property;

Substantial interference with a student’s education or with a public school employee’s role in education

A hostile educational environment for one (1) or more students or public school employees due to the severity, persistence, pervasiveness of the act; or Substantial disruption of the orderly operation of the school or educational environment

Cyberbullying is prohibited whether or not the cyberbullying originated on school property or with school equipment, if the cyberbullying results in the substantial disruption of the orderly operation of the school or educational environment or is directed specifically at students or school personnel and maliciously intended for the purpose of disrupting school and has a high likelihood of succeeding in that purpose.

The person or persons reporting behavior they consider to be bullying shall not be subject to retaliation or reprisal in any form.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. In determining the appropriate disciplinary action,

consideration may be given to other violations of the student handbook which may have simultaneously occurred.<sup>1</sup> In addition to any disciplinary actions, the District shall take appropriate steps to remedy the effects resulting from bullying.

### **CORPORAL PUNISHMENT**

In accordance with Act 333 of 1995, the Salem School District authorizes the use of corporal punishment. The punishment should be administered only for cause, be reasonable, follow warnings that the misbehavior will not be tolerated, and be administered by an administrator in the presence of a licensed staff member.

The punishment will also be administered according to the following guidelines:

1. This method may be used as an alternative to counseling and other means of behavior modification.
2. It will be administered in the presence of at least one authorized employee in addition to the person dispensing it. This witness will be of the same sex as the student receiving corporal punishment.
3. It will not be administered in the presence of other students nor in a spirit of malice or anger, nor will it be excessive.
4. Before corporal punishment is administered, the student must be advised, in the presence of a witness, of the rule and infraction for which the student is being punished. If the student claims innocence, the certified employee will permit the student to state his/her position, which shall be considered prior to the administration of the corporal punishment.
5. Refusal to take the corporal punishment may result in suspension or other disciplinary measures being taken.
6. The principal will be notified when corporal punishment is administered, and a written report shall be filed in the principal's office.
7. Corporal punishment shall not be used as a form of discipline for a student who is Intellectually disabled, non-ambulatory, non-verbal, or Autistic. It is the responsibility of the parent or guardian to notify the district if the student meets the criteria in the previous statement.

### **DUE PROCESS PROCEDURE**

1. Prior to any disciplinary action, the school principal or his/her designee shall advise the pupil in question of the particular misconduct of which he or she is accused, as well as the basis for such accusation

2. The pupil will be given an opportunity at that time to explain his/her version of the facts to the school administrator.
3. Parent/Guardian notification of a suspension will be made by one of the following means, listed in order of priority:
  - (a) In person, (b) a primary call number: The contact may be by voice, voice mail, or text message, (c) An e-mail address, (d) A regular first class letter to the last known mailing address.
4. Any parent(s) or legal guardian of a pupil suspended shall have the right to appeal to the superintendent of schools.

## **SUSPENSION**

### **WHO MAY SUSPEND:**

The principal of any school or designee is authorized to suspend students for disciplinary reasons.

Students may be suspended up to 10 school days, including the day on which the suspension was initially imposed. A LONG-TERM suspension is one not amounting to an expulsion for the remainder of the semester but is one that is longer than 10 days. This long-term suspension, however, shall only be authorized after the student has been afforded notice, opportunity for a hearing, and is given the same procedural rights as for an expulsion.

### **PROCEDURE PRIOR TO SUSPENSION:**

Prior to suspension, the principal or designee shall inform the student either orally or in writing what the student has been accused of doing. The principal shall explain the evidence which forms the basis of the charges and shall permit the student to present his/her side of the story.

### **PARENTAL ROLE IN SUSPENSION PROCEDURE:**

If the principal considers that a suspension is proper, the principal may request a student-parent-principal conference. It is the parents' or guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

(1) In person, (2) A primary call number: The contact may be by voice, voice mail, or text message, (3) An email address, (4) A regular first class letter to the last known mailing address.

### **CONDITIONS OF SUSPENSION:**

A student who has been notified that he/she has been suspended from school must remain away from school premises until reinstated. The only time a suspended student will be permitted on the school premises is, when accompanied by a parent or guardian, to attend a student-parent-principal conference.

#### STUDENT-PARENT-PRINCIPAL CONFERENCE:

If, in the conference, no decision is reached by the principal for reinstatement of the student, then the principal or designee shall extend the suspension of the student and shall furnish the superintendent of schools a full report of the suspension within a period of 5 school days from the request. The parent or guardian of a student, or a student of majority age, may also request a hearing before the superintendent of the school.

#### THE SUPERINTENDENT'S ROLE IN THE SUSPENSION PROCEDURE:

The superintendent of schools or designee shall have the authority to revoke, terminate, or otherwise modify the suspension and will notify the principal and parents of his action in this regard within 10 school days from receiving the principal's report. The superintendent will notify the parent or student of his actions.

#### EMERGENCY SUSPENSION:

Notwithstanding the policy concerning suspension and expulsion procedures, students may be suspended indefinitely without notice; hearing, and afforded the other rights provided herein when the school is undergoing a violent upheaval or where orderly educational processes have otherwise been substantially disrupted. This would apply only in rare instances such as when riots are taking place and where emergency circumstances make it unreasonable for the administration and Board to consider the case under their usual time restrictions. In all such cases, notice, hearings, and other rights shall be provided in accordance with normal provisions at the earliest practical date that restoration of order permits.

### **EXPULSION**

Expulsion is the prohibition of a student from entering the school or school grounds for a prearranged conference with an administrator. The Salem Board of Education may expel a student for conduct it deems to be of such seriousness that the student's continued attendance would be disruptive to the educational process or endanger other students or staff members. The length of the expulsion will be determined by the seriousness of the offense and may, in some cases, be permanent.

#### WHO MAY RECOMMEND EXPULSION:

The principal of a school may recommend that a student be expelled from school with loss of credit and shall make said recommendation to the superintendent in a written statement of the charge or charges against the student. If the superintendent concurs with the recommendation, he/she shall schedule a hearing before the School Board.

#### SCHEDULED HEARING:

The superintendent or designee shall give written notice to a student of majority age or to the parent or guardian of a minor, scheduling a hearing before the School Board. This notice must be made within 10 school days of the alleged incident. Such hearings will be conducted not earlier than 3 school days following the date of the notice nor later than 10 school days. The notice will state charges against the

student in clear and concise terms, the name of witnesses who will appear against the student, and a brief statement concerning the nature of their testimony.

#### REPRESENTATION:

In every case of a hearing held by a School Board regarding the expulsion of a student, the president of the board, or in his/her absence, another member selected by the board, shall preside at the hearing. The student shall be entitled to representation by a lawyer or legal counsel. The superintendent or designee shall present evidence and may present witnesses or statements from those persons having personal knowledge of the events or circumstances giving rise to the expulsion recommendation.

#### CROSS-EXAMINATION:

The student or representative may then present witnesses or statements by witnesses with personal knowledge of events or circumstances relevant to the issues. Normally, formal cross-examination will not be permitted. If during the course of the hearing, the Board determines the credibility of any of the witnesses is an issue, then it will permit cross examination by the student and the superintendent or their representatives. Such cross examination should ordinarily be limited to the question or questions specifically related to the credibility of the witness. Opportunity shall be afforded the student to observe all evidence offered against him/her. Members of the Board may question any witness.

#### DECISION:

At the conclusion of the hearing, the Board may discuss the matter and decide on it by vote. If the Board does not expel the pupil with loss of credit, they may impose less severe disciplinary actions, such as a long-term suspension, which may be with or without an opportunity for make-up of school work. The Board shall briefly state its findings in writing within 10 school days after the hearing.

#### RECORD OF THE HEARING:

The board shall record the evidence gathered at the proceedings by use of either a court reporter and/or a tape recorder. If the student so desires, the record will be transcribed and a copy furnished to the student. Copies of all statements used as evidence will be included with the record.

#### RESPONSIBILITIES:

The school administration has the responsibility to present the evidence to the Board and the administration is entitled to open and conclude. The President of the Board or the presiding officer has the authority to limit unproductively long or irrelevant questioning by such non-board members.

#### GROUP HEARINGS:

When two or more students are charged with violating the same rule and have acted in concert and the facts are basically the same for all such students, a single

Students who violate technology user agreements are also subject to the penalties outlined in the agreement.

Students who use technology to violate other policies will be subject to discipline for misuse of technology as well as the policy violation.

Example: A student sends a threatening E-mail message to another student.

It will be the decision of the individual teacher to determine if the student will be sent to the office for a tardy slip before admitting that student to class. Each student, faculty member, parent, and fan is responsible for abiding by Arkansas Activities Association and Salem High School rules and regulations while attending school activities. ### **MINIMUM CORE OF HIGH SCHOOL COURSES RECOMMENDED FOR PREPARATION FOR HIGHER EDUCATION**

Research and the experience of students, faculty, and administrators indicate that students taking a solid high school core of courses have better test scores and greater success in institutions of higher education. To increase your chances of success, the following minimum core of high school courses is recommended:

English -Four units with emphasis on writing skills. (not to include courses in oral communication)

Natural Science -Three units with laboratories. In Biology Integrated, Chemistry Integrated, Physical Science Integrated.

Mathematics -Four units, including Algebra I & II, and Geometry.

Social Studies -Three units, including one of American History, one of World History, and at least one-half unit of Civics or American Government (not to include courses in practical arts).

Foreign Language -Two units in one Foreign Language.

In addition to the writing and computational skills that students should gain through the sequences of English and Mathematics courses in the minimum core, students should also develop the following basic skills:

Reading -Verified skills at or above the 11th grade reading skill level.

Computer Usage -Skills in computer usage for instruction, word processing, spread sheets, and similar applications.

Keyboarding/Typing skills at a level to facilitate computer usage and word processing of papers and reports.

Oral Communication -The ability to influence others through oral discourse. This may be through public speaking, one-to-one conversation, or in small and large groups.

The following courses beyond the minimum core are recommended to enhance the student's preparation for higher education.

Natural Science -A fourth unit with laboratory. Chosen from Biology Integrated, Advanced Placement Biology, Environmental Science, Chemistry, Physics, or Physical Science.

Mathematics -A fourth unit of mathematics at a higher level than Algebra II.

Speech -One-half unit of study devoted to speech making, oral reports, or small group presentations and problem-solving.

Fine Arts -One unit chosen from the performing and visual arts.

#### Interpretive Comments:

Arkansas needs a greater portion of its young people to attend institutions of higher education. These recommendations are presented to provide students and parents with information on preparation and to encourage students to attend. It is not intended that applicants without these courses will be refused admission and, indeed, open admission on at least a conditional basis is expected at many state institutions. However, students entering universities or two-year institutions to begin bachelor's degree programs should expect to need the background provided by the minimum core, and they should expect to take additional coursework to develop that background if it is not accomplished in high school. The social studies recommendation provides high school the alternative of either a full unit or a half unit of Civics or American government.

These recommendations are made by the State Board of Higher Education in consultation with the State Board of Education as provided by Act 98 of 1989. The legislation requires the State Board to communicate this information at least once each year to each public school superintendent, who is required to make copies available each year to all public school students in grades seven through twelve.

The Salem High School is dedicated to providing students with the skills, knowledge, and attitudes essential for a productive and purposeful life and to creating an environment so that all learners can achieve success.

The school believes:

- a child's education is a responsibility shared by the school and family during the entire time the child spends in school.
- parents and schools must work together as knowledgeable partners.
- communication with parents should be regular, two-way, and meaningful, involving parents in student academic learning and other school activities.
- parents are an integral component of a school's ability to provide for the educational advisory committees to assist in the education of the child.
- engaging parents is essential to improve student achievement.
- schools should foster and support parental involvement.
